The amendment shall take effect from 1st April 1931 and shall only apply to cargo discharged from vessels arriving at the port on and after 1st April 1931 and not to cargo discharged from vessels in the port on that date which may have arrived prior to that date.

No. 227.—The following letter from M. W. W. M. Yeatts, Esq., I.C.S., Superintendent of Census Operations, is published :—

I have the honour to enclose a statement showing the provisional results of the census taken on Thursday the 26th February. The form of the statement explains itself and needs no further remarks. Owing to the damage to the ship that should have taken the inspecting parties to the Laccadive and Amindivi Islands, the final figures for these areas have not yet been determined.

2. There has been a general increase throughout the Presidency. This was to be expected, for the past decade has been comparatively free from serious epidemic or famine, in marked contrast to its predecessor. The only areas to show a decrease are not strictly Presidency areas at all, viz., Pudukkottai State and Coorg. Coorg showed a deficit over the 1911–21 decade too but Pudukkottai did not. Possibly the recent flood damage produced a good deal of temporary evacuation.

The Nilgiris leads the districts in percentage increase with 33·8. Of the more representative areas, the southern Tamil districts tend to be smaller in increase than the others (Tanjore 2·4 per cent, South Arcot 5·8 per cent and Trichinopoly 0·6 per cent). They had less scope for heavy rises. A noteworthy feature is the almost uniform increase in the Telugu deltas (East Godavari 14·6 per cent, West Godavari 16·4 per cent., Kistna 15·9 per cent and Guntur 12·5 per cent). All the Ceded Districts show a rise this time—all showed a drop in 1921—Bellary and Anantapur reaching a double figure percentage. Perhaps the most remarkable of the district figures however is Malabar which despite its former comparative congestion has succeeded in registering a 14 per cent increase and now has over 3½ million people within its borders.

3. The cities offer interesting figures. Salem leads easily, having nearly doubled itself. The 1921 figure was completely vitiated by a plague exodus and though one hardly expected Salem to top the lakh a very considerable rise was looked for. Coimbatore shows a large increase. This was anticipated by all who had followed the steady development of that industrial centre of growing importance. Madura too was expected to show a large increase, for the growth of its industrial side was marked.

Two cities drop out, Bellary and Negapatam. The former did not really qualify even in 1921. The decline of the latter was inevitable with the departure of the South Indian Railway Workshops to Golden Rock. Seven new cities however appear, no fewer than five of them in the Circars and four of them in the delta districts there, on whose uniform increase I have already commented. The other two are Palamcottu, which has always been on the verge, and Tuticorin, which strides into the position of first city in Tinnevelly.

4. The increase is marked in Madras City which for the first time goes above 600,000 and now approaches 650,000, the increase over the 1921 figure being nearly 23 per cent. This increase is not uniform throughout the city but is a feature particularly of Royapettah, where it reflects the presence of the Mambalam extension; of Perambur, where there has been much industrial extension; and of north Madras, where people are beginning to settle in greater numbers, the former disfavour in which these areas were formerly held as a result of unhealthiness real or alleged having now, I am informed, considerably declined. Particular attention was paid to the collections of huts which are so marked a feature of the city and over 14,000 metal number plates issued will illustrate the number of dwellings offering no surface on which a number could be painted. A special effort was made towards a thorough round-up of the street-dwellers who represent perhaps the most remarkable demographic phenomenon of the Presidency town. These people are not all tramps by any means and I came across many a regular family group among them. The majority are ordinary citizens in all but the possession of a roof; so far as I could see many would not welcome one.

5. The city increases are generally heavy and without attempting to make any positive deductions, a first inclination is to wonder whether the townward trend has set in in earnest.

6. This census saw the abolition in Madras City and Bangalore, Civil and Military Station, of the use of household schedules. This departure has been a success and in my opinion these schedules need not be used in future in this Presidency. I shall deal with this and other suggestions in my report.

7. These totals have been struck and this letter sent off with them to the Madras Government in five days, which is, I believe, a Madras record. I have been able to achieve this early despatch only through the willing co-operation of district officers and this at a time of considerable pre-occupation with other matters. I am also much indebted to the enthusiastic work of my own office. Almost continuous personal inspection and testing in every district of the Presidency or other areas for which I am responsible have impressed me with the magnitude and frequent difficulty of a census enumerator's work. To all my helpers I feel myself deeply indebted and treasure now in my recollection many a friendly face encountered in block, circle or charge. I owe a special debt to Mr. Krishnaswami Ayyangar, the Revenue Officer of the Madras Corporation, who was in immediate charge of enumeration within the city. He has been a most indefatigable, willing and cheerful associate. The city presents problems of peculiar difficulty; personal visits covering many hours in all to the areas of huts, the street dwellers, etc., have convinced me of that and of the nature of the task which Mr. Krishnaswami had before him.

8. The Press has added another to its remarkable performances. Last year, when my 5½ million schedules in six languages had to be printed, the Press was as in 1921 beset with election printing. Another coincidence is that in 1930 as in 1920 heavy breaches on the railways produced delays in the transit of schedules to the districts. In no case, however, could delays be traced to the Press. From the very beginning I have worked in close communication with Mr. Green and wish now to record my deep appreciation of his courtesy, willingness and efficiency.

No hall tickets will be issued (except to those who have applied to be examined in Typewriting—Lower Grade) but a copy of the Nominal List will be posted on the Notice Board at the entrance to the examination hall two days before the date of the Commencement of the examinations and candidates are expected to learn their register numbers from this list.

Note.—Candidates will distinctly understand that no notice will be taken of any letter requesting to be informed of their register numbers, etc.

III.—REGULATIONS TO BE OBSERVED BY THE CANDIDATES.

Both at Madras and in the Mufassil.

(i) Candidates in *all* the subjects must bring with them for use in the examinations their own rulers, erasers, knives pens, pencils, carbon papers and ink of two or more colours (other than black) for map-drawing, drawing lines in Book-keeping, etc.,

Candidates in *Shorthand* will be allowed to transcribe their shorthand notes with a Typewriter. They will not be supplied with any 'thick' paper for the purpose, but will be allowed to bring with them their own 'thick' paper, if they wish to use such paper. The use of carbon paper will on no account be allowed in transcribing the shorthand notes with a Typewriter If the machine used by a candidate, however, goes out of order, no extra time will be given to him to compensate for loss of time while the machine is out of order and is being put right.

At the end of the period allotted, candidates must give up both their shorthand and longhand performances to the Chief Superintendent for submission to the Examiner.

(ii) INSTRUCTIONS REGARDING THE EXAMINATIONS IN TYPEWRITING

Both at Madras and in the Mufassal.

1. Candidates in Typewriting will have to bring their own Typewriters, rulers, erasers and also the necessary carbon paper with them and must specify clearly on their answer papers, the particular kind of machine used by them as otherwise their answer papers will not be valued.

2 The following is the list of the names of Typewriters recognized for use in the examinations:—

The Remington, Remington Portable, New Model Remington No. 12, Yost, New Century, Smith Premier, Densmore, Empire, Underwood, Underwood Portable, Oliver Armstrong, Standard Folding, Stoara's Visible, Sun Typewriter, Fox Visible, Salter, Victor Typewriter—Model No. 3 and No. 10, Monarch, Noiseless, Wood-Stock Standard, Royal Standard No 10 Rex Visible, Mollu, Mercedes, Demountable, Elite, British Empire Typewriter, Corona Portable No 4, All-British Barlock Typewriter, Royal Portable, Merz, Kappel or L.C Smith & Bros machine.

Note.—Only one particular kind of machine should be used by the candidates throughout the examinations.

3. Seats and accommodation for the candidates :—

(a) Candidates will be permitted to bring with them for their use at the examination hall their own tables, chairs or stools, if they choose; provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the

appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their register numbers at the left hand corner of their answer papers and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question paper itself Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further candidates are strictly warned not to take carbon copies more than what is required of them in the question paper.

5. The candidates will, if necessary, be examined *in batches*, but at least every *four* candidates for the Lower grade, at least every *two* candidates for the Higher grade, must have one machine among them.

6 Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and Instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers

8 If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in the matter; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the Manager or Instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and is being put right.

In the Mufassal.

Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned *four* days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination

At Madras.

Lower Grade—Candidate's Hall Ticket, Tickets of admission specifying the particular batch (first or second and so forth in which the candidates elect to appear) will be issued on Thursday, the 22rd April, between 11 a.m. and 5 p.m., at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall Candidates who produces tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Thursday, the 23rd April, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have each a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. **But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.**

Candidates for the *Higher grade* may appear for the first or second batch at their option and *no tickets accordingly are issued for this grade*

Instructor's Hall Ticket.—Managers or instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Thursday, the 23rd April, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Both at Madras and in the Mufassal.

(*a*) Attention is particularly drawn to the following rules —

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

4. Strict silence should be maintained in the examination hall.

5. *No candidate will, on any account, be allowed to take into the examination hall slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule or detected in speaking to, or in any way communicating with or copying

from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

8. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations.

9 No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12 Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into two, lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Shorthand, the particular system adopted) and (in the case of the examinations in Typewriting, the name and number of the Typewriter used) should be written out clearly by the candidates on the top right hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

[*N B.*—(1) Candidates are strictly forbidden to write or type their names on the answer papers.

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejection of valuing their answer papers—particularly any answer papers sent up without the candidate's register number and name of centre will not be valued.]

15. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo a re examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.*

16. Candidates are forbidden to communicate with the Examiners; should they do so, their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. **Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for a revaluation of the answer papers will not be attended to. No revaluation of answer papers is permissible.**

BILL No. 4 OF 1931.

The Madras Co-operative Societies Bill.

NOTE ON THE CLAUSES.

Clause 5.—Provision is made for a society to change its liability from limited to unlimited or from unlimited to limited and for due safeguards of the interests of any persons affected by the change.

Clause 13.—The provision is new and it lays down how registered societies may be split up into two or more societies and the manner in which the reserve fund to its credit has to be apportioned among the latter. The clause is in conformity with the practice in vogue. It also provides for the amalgamation of two or more societies into one

Clause 14.—Before a registered society is started, arrangements have to be made for the collection of share capital and purchase of account books. Provision is made for the election of a committee for the purpose.

Clause 15.—This is a new section It is proposed to make it a statutory obligation on the part of the managing committee to call for general body meetings when the Registrar makes a requisition in writing and in certain other circumstances. In experience, it has been found that the committee in certain recalcitrant societies flout the by-laws in this respect

Clause 16.—Section 13 of the existing Act has been recast to remove the possibility of plurality of votes to members in limited liability societies and to enforce the co-operative principle of 'one man, one vote'

Clause 21.—Recommendations 26 and 140 of the Madras Committee on Co-operation are adopted. It is proposed to make the debt owing to a society a first charge upon crops, etc., in respect of which the loan was given.

Clause 22.—Deceased member is included expressly with past member. It is open to question whether the existing law gives a charge in the case of a deceased member. There is no reason why it should not, but elsewhere the existing Act draws a distinction between past and deceased member (e.g., sections 23–24).

Clause 25.—The distinction made in sections 23 and 24 of the India Act as between the liability of a past member and deceased member is done away with and both the sections are drafted into one making the liability of both extend to two years. The recommendation of the Townsend Committee No. 221 is given effect to.

Clause 27.—Sub-section (2) is new and is intended to avoid the lodgement of the books of a society in courts to the detriment of its work.

Clause 28.—It is a new clause introduced to give effect to the recommendations of the Townsend Committee Nos. 231 and 232. The existence of the power to recover overdue instalments by distraint of the defaulters' movable property will itself stimulate prompt and punctual repayments.

Clause 31 enables the Government to grant loans and give financial assistance to societies as is already being done and also to take shares in registered societies.

Clause 36.—A provision has been made for payment from society's funds for clerical work done by a member and recommendation No 23 of the Townsend Committee has been taken into consideration.

Clause 38.—The existing section 17 and rule VIII-A made by the Government of Madras are drafted together and emphasis is laid on the verification of cash balance and other securities as one of the important functions of an auditor. The words 'or the Collector', being out of place, are omitted in clause 38 (3) but retained in clause 39 (1). This section is confined to audit. The old section 17 was headed audit but sub-section (3) refers to general inspection. The sections on audit and inspection are now made distinct and each is complete in itself. It has been contended that the existing section 17 (3) gives power only to inspect for purposes of audit and recalcitrant societies have given much trouble on this supposition.

Clause 39.—The existing section 35 and rule XII are embodied in the clause and the accounts, records, etc., are

made accessible to an enquiry officer as to an auditor in clause 38. Provision has also been made for convening an emergent general body meeting for the purposes of the enquiry at the instance of the enquiry officer.

Clause 40.—The provisions for enquiry are made applicable to inspection. The inspection has been made permissible instead of obligatory on the Registrar.

Clause 42.—The section is proposed to be made clearer and magistrates are required to collect the cost of enquiry as if it were a fine imposed by themselves.

Clause 46.—The recommendations of the Madras Committee on Co-operation on liquidation have been taken into consideration and the powers of the liquidator have been enlarged to wind up the affairs of liquidated societies promptly.

Clause 47.—It is an amplification of the provisions of clause 8 of section 42 of the India Act.

Clause 48 is a new provision which empowers the Registrar to assess damages caused to a society by delinquent promoters on account of their wilful negligence of the general interests of a society.

Clause 49.—This is a new clause and provision is made for conditional attachment at the instance of the liquidator or on the Registrar's own motion.

Clause 50 provides for the settlement of disputes and rule XIV of the rules framed under the India Act is read in the clause. The conditional attachment of a judgment-debtor's properties in the interests of the decree-holder is also provided for. It is also proposed to invest the Registrar with revisionary powers over the awards given under this section.

Clause 51 is new. It declares certain acts of omission and commission as offences, as clause 54 provides for the punishment and clause 55 provides for the procedure. The clauses are based on the provisions in the English Industrial and Provident Societies Act.

Clause 56 is new and gives power to the Registrar to call for records of enquiry made by any officer and pass orders thereon.

Clause 60.—The rule-making power is extended among other matters to

(i) the levy of the expenses of preparing the returns if the societies neglect to submit them;

(ii) the levy of fees for the supply of copies of the society's records; and

(iii) the levy of the expenses of the settlement of the dispute and the enforcement of the awards.

Several new sub-clauses have been introduced and rules may be made prescribing the restrictions for trading with non-members, providing for the representation of miners in the course of arbitration proceedings and prescribing the procedure in the presentation and disposal of appeals and the terms and period of Government aid and for distraint of movable property.

Clauses 62 *and* 63.—The changes are formal.

Under rule 18 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

BILL No 6 OF 1931

A Bill to extend the Malabar Compensation for Tenants Improvements Act, 1899, with certain modifications, to the Gudalur taluk of the Nilgiri district.

Madras Act 1 of 1900

Preamble.

WHEREAS it is expedient to extend the provisions of the Malabar Compensation for Tenants Improvements Act, 1899, with certain modifications, to the Gudalur taluk of the Nilgiri district;

AND WHEREAS the previous sanction of the Governor-General has been obtained to the passing of this Act;

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Gudalur Compensation for Tenants Improvements Act, 193 .

(2) It extends to the whole of the Gudalur taluk of the Nilgiri district

Madras Act 1 of 1900

Extension of sections 3 to 20 of Madras Act 1 of 1900 to the Gudalur taluk of the Nilgiri district with certain modifications

2 Sections 3 to 20 of the Malabar Compensation for Tenants Improvements Act, 1899 (hereinafter referred to as the said Act), shall apply to the Gudalur taluk of the Nilgiri district subject to the following modifications, namely:—

(1) in section 3 of the said Act, for the word 'Malabar' the words 'the Nilgiri' shall be substituted;

(2) in section 14 and sub-section (1) of section 15 of the said Act, for the words 'Malabar district' the words 'Gudalur taluk of the Nilgiri district' shall be substituted;

(3) in section 17 of the said Act, for the words 'and Malayalam' the words 'Malayalam and Tamil' and for the word 'Malabar' the words 'the Nilgiri' shall be substituted;

(4) in section 19 of the said Act, for the words and figures 'after the first day of January, 1886' the words 'after the coming into force of this Act' shall be substituted; and

(5) in section 20 of the said Act, after the words 'construed as' the words 'entitling any person to claim compensation under the provisions of this Act for any improvements made before the coming into force of this Act or as' shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The Malabar Compensation for Tenants Improvements Act, 1899 (Madras Act I of 1900), was passed with a view to secure to the tenants of jannis in the Malabar district, on ejectment from their holdings, compensation for improvements made by them or by their predecessors in interest. The area known as the Gudalur taluk of the Nilgiri district formerly belonged to the Malabar district and the conditions of tenure in that area are similar to those in Malabar. Representations have been made from time to time that the Malabar Compensation for Tenants Improvements Act should be made applicable to the Gudalur taluk of the Nilgiri district on the ground that the tenants of jannis in that taluk require the protection of the Act just as much as the tenants of jannis in Malabar. It is accordingly proposed to extend the provisions of the Act to the Gudalur taluk of the Nilgiri district.
